Hi Maria, yes, today I am not able to start the process, however, next week, this will be a high priority item for me.

I will let you know when I have some questions, but here is one:

• I understand that this is the first year of a 2-year grant, so does the DOGGR need to match this year's amount to their 2013 budget items?

Have a good weekend,

George

Subject: RE: FY 2013 UIC Class II Primacy Grant Allocation - balance

Thanks George. I got your voice message. I am in on Monday if you want to meet.

Take care.

Subject: FY 2013 UIC Class II Primacy Grant Allocation - balance

Hi Jerry,

This is to confirm from our phone conversation that the remaining balance of UIC Primacy Grant Fund Allocation for FY2013 is $191,000.

The total allocation for this year is assigned a total of $491,000 for the Ca. DOGGR Class II Primacy program. We already awarded $300,000 late last year, leaving the current balance of $191,000.

I am working on the award for the Final balance amount put together for you all. I understand that Dan Wermiel will be available to correspond with us in your absence until you return in July.

Please provide the contact information of others who we should know to contact regarding specific aspects of the DOGGR's UIC Grant Application (accounting, grant officers, etc.) as they might relate to possible adjustments to the Application to allow finalizing this upcoming funding action.

Sincerely,

George
